MONKZI (MONKILLA) - Whitepaper

1. Introduction

MONKZI is more than just a meme coin. Its a cultural shift where meditation meets market chaos. With community power, golden banana chains, and pure jungle energy, Monkilla is here to zen-pump the meme space.

2. Backstory (Lore)

Deep in the crypto jungle, one monkey sat still while others chased charts. His name: Dubu. With his wild sister Bubu, they discovered the true path memes, patience, and purpose. Monkilla was born.

3. Tokenomics

- Total Supply: 1,000,000,000 MONKZI

- Team Reserve: 100,000,000 MONKZI

- Locked: 10,000,000 MONKZI + 0.2 BNB

- Max Wallet: 2% (20,000,000 MONKZI)

- Max Transaction: 1% (10,000,000 MONKZI)

- Tax: 6% (2% Burn, 2% Marketing, 2% Liquidity)

- Active Burn & Giveaway Strategy

4. Vision

From memes to mini-games, Monkilla will evolve into a community launchpad and fun-driven ecosystem. Future utility includes a launchpad for indie coins and holder-rewarding games.

5. Roadmap (Phase 15)

- Phase 1: Branding, Tokenomics, Smart Contract

- Phase 2: Community, Contest, Voiceover

- Phase 3: LP Lock, BSC Verification, Launch

- Phase 4: Website, Whitepaper, Listings (now)

- Phase 5: Launchpad, Games, Airdrops

6. Community & Culture

- Mascots: Dubu (chill monk) & Bubu (wild queen)

- Giveaways: 1,000,000 MONKZI active

- Meme Contest: #MonkMemeChallenge

- Stickers, Gifs, Twitter clapbacks and more!

7. Security & Transparency

- Built on Binance Smart Chain (BEP-20)

- Smart contract verified

- LP tokens will be locked (PinkLock/Unicrypt)

- Ownership renounce / transparency tracked
